🎓 EDUCATION

Masters in Mechatronics and Robotics

Hochschule Schmalkalden
10/2023 – Present
Schmalkalden, Germany

SUAS Premier (Professional Skill Development course)

09/2024 – 12/2024

Bachelors in Mechanical Engineering

K. K. Wagh Institute of Engineering Education and Research
06/2017 – 05/2021 | Nashik, India

🌐 LANGUAGE

English - Bilingual (C2)

German - Intermediate (B1 - improving)

Hindi - Native

📜 CERTIFICATIONS

- NPTEL: Robotics
- Arial Robotics
- Machine Learning

🧠 TECHNICAL SKILLS

Programming: C++, Python, RUST, MATLAB

Robotics & Simulation: ROS, ROS2, Gazebo, Unity3D, Unreal Engine, RViz, MoveIt, ROS-Bridge

AI & ML: TensorFlow, PyTorch, Keras, OpenCV, Machine Learning, Deep Learning, SLAM, Sensor Fusion

Control & Embedded: PID Control, RTOS, STM32, Arduino, Raspberry Pi, PLC Programming, Microcontrollers

Mechanical & Prototyping: SolidWorks, AutoCAD, PTC Creo, Simulink, PCB Design, 3D Printing, CNC Machining

Tools & OS: Git, Linux, Version Control, Data Analysis (NumPy, Pandas)

📁 EXPERIENCES

Eviotec Technologieentwicklung GbR

Project Assistant (Projektmitarbeiter) | Part-Time
04/2025 – Present | Schmalkalden, Germany

- Researched and evaluated engineering solutions
- Designed and built functional prototypes
- Prepared technical documentation and design reports

Prime Graphite Industry

Engineer Trainee - Production Planning
12/2022 – 07/2023 | Nashik, India

- Assessed customer CAD models and electrode feasibility
- Planned and scheduled production based on design and order requirements
- Bridge for interdepartmental communication

📁 PROJECTS

Modular Robotic Manipulation Framework with Solver-Agnostic Architecture

- Developing a ROS 2-based 4-DOF robotic manipulation system using MoveIt Task Constructor, featuring a modular URDF, complex gripper kinematics, and a custom RViz panel supporting dynamic selection of motion planners and IK solvers.

XY Pen-Plotter

- Designed and fabricated a high-precision pen plotter from scratch; integrated embedded control, safety features, and a user-friendly HMI for automated drawing tasks.

Disaster Response Robot (Bachelor Thesis)

- Built an unmanned ground vehicle (UGV) for disaster relief operations; implemented real-time human detection using computer vision for search-and-rescue scenarios.
